

Advertising requirements for the Smart TV format with QR in the Online TV product

General information

1. The creative must contain in the visible part:
 - “Ad” label - "Реклама" (in Russian);
 - Info about advertiser and (or) web-site, web-page located in Internet, containing information about the advertiser (for example, Romashka LLC and / or romashka.ru);
2. Click link or link to a landing page (URL) must be provided.
3. Claims for the non-availability or problems with displaying statistics collected by the pixel on the Client's side are accepted within 3 days after the actual start of the advertising campaign.

Social advertising

Online social advertising distributed over Internet must contain label «Социальная реклама» in Russian ("Social advertising" in English), as well as information about the advertiser of the social ad and the web site, web page containing information about the advertiser of the social ad.

Provision of advertising materials

All advertising materials and accompanying documents must be submitted for verification and testing no later than 5 (five) working days before the start of the advertising campaign.

Ad identifier (ERID, token) placement

Since there are no clicks on SmartTV devices and the user is navigating to the click URL from another device (e.g., a smartphone) Digital Alliance independently places/applies an ERID (token) on top of the video clip in the upper left corner in the form of a «erid:xxx», where «erid» is a token name, «xxx» - ID, assigned by “ОРД” (Advertisement Data Operator) to an ad, in the form of a set of alphanumeric text using Latin letters in Comfortaa font, font size 16.

Example:

Important!

Do not place important information on the top left corner. That place is for ERID by default.

Accepted verification:

- Adserving
- Weborama
- Adriver
- Admon
-

Requirements for video placement

1. No sound – videos with a duration of packshot to 10 seconds are permitted.
2. With sound – videos with a duration of packshot 10 to 25 seconds are permitted, but only with an integrated audio track.

Requirements for the client:

- A finished video that meets the technical requirements must be provided.
- The final video must include an audio track, as well as a field for the QR code and timer.
- All parameters (dimensions, duration) must strictly comply with technical standards.

Important when preparing the video:

The QR code and timer must appear immediately on the frame (packshot) without the use of visual effects (e.g., smooth appearance, fading, or animation).
