Advertising without click links

Digital Alliance independently places/applies an ERID (token) on top of the video clip in the upper left corner in the form of a «erid:xxx», where «erid» is a token name, «xxx» - ID, assigned by “ОРД” (Advertisement Data Operator) to an ad, in the form of a set of alphanumeric text using Latin letters in Comfortaa font, font size 16.

Example:

Technical aderving capabilities

Capabilities	Mobile application	Smart TV	Web (desktop + mobile)
Impression pixel	✓	✓	✓
Quality metrics pixel (IVT, BS, VA)	✗	✗	✓
VPAID tag	✗	✗	✓

Important!

When using a product that includes all platforms and devices (Web + Mobile application + Smart TV), the advertiser must provide a set of tags and creatives that allows placement on the included platforms.

Important!

Do not place important information on the top left corner. That place is for ERID by default.
